Claim Rejections - 35 USC § 102

DETAILED ACTION

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 24 and 34 are rejected under 35 U.S.C. 102(b) as being anticipated by Tatian (US 4,958,931).

Tatian shows a system utilizing an achromatic null lens comprising:

dividing a measurement surface of the optical element into at least two segments (8); and

interference-measuring each segment, wherein in measuring a surface shape, a wave front as a measurement reference for a measurement of at least one segment is an aspheric wave front (by use of a null lens).

Allowable Subject Matter

Claims 1-23 allowed.

Claims 25-33 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record fails to show or to suggest an interferometer comprising a wave-front changing unit wherein the wavefront changing unit includes an Alvarez lens pair or wherein the wavefront changing unit changes a fourth order or higher component of a moving radius of the wave-front.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Hwa S. Lee whose telephone number is 571-272-2419. The examiner can normally be reached on Tue-Fr.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory J. Toatley Jr. can be reached on 571-272-2800 ext 77. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
